THE SPA OIL NARRATIVE

Choose the right body oil for your skin type

Embark on a wellness sojourn as you walk down through the cool labyrinths of the imperial spa and select your signature oil for a holistic treatment. Choose as per your skin type and pick your fragrance as per your mood, which can be woody, spicy or floral.

The oils tend to cool or give warmth and work on sore muscles, relieve tension and improve blood circulation, helping to revive the skin and promote sleep. Once the oil is picked, the therapist freshly mixes it with the base oil to begin the ritual and the guest is then guided to a blissful massage. Finishing on a calming note, our oils provide a bespoke journey personalized for each individual and are available for retail as well.

OUR RANGE OF BESPOKE OILS

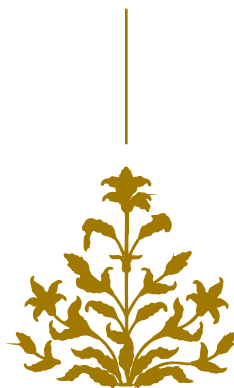

The Imperial Spa has a range of hand-picked essential oils and carrier oils that are suitable for all skin types, for an absolutely personalized wellness experience in an exquisite environment of serenity and awakening. From *Nargis* to *Oudh* to *Mandarin* and *Black pepper*, the distinguished essential oils are carefully prepared with botanical herbs to suit your penchant for a luxurious spa journey, curated just for you at our temple of well-being. Celebrating the state of being with our philosophy of knowledge *Mudra*, we encourage you to treat yourself to our rituals with our unique line of blended oils aligned to your body needs, preferences and skin types. These patented massage oils have an insightful process with each ingredient being painstakingly sourced.

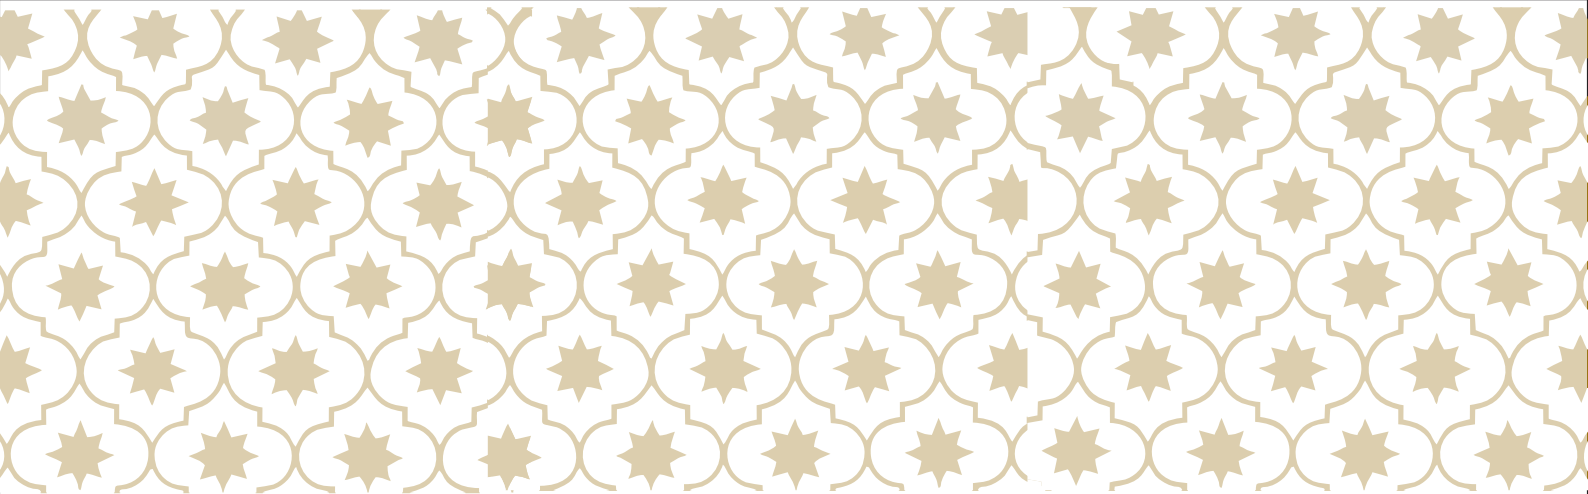

LUXURY WELLNESS AT THE IMPERIAL SPA

AN OASIS OF TRANQUILITY

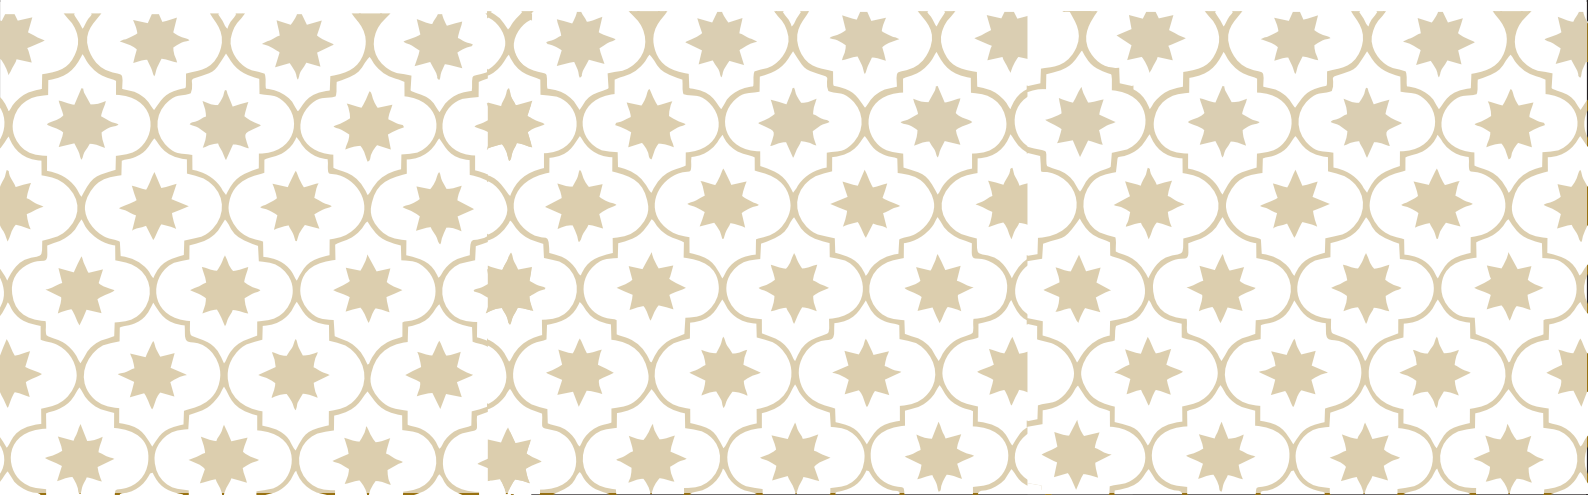

Embody the intention of holistic well-being at The Imperial spa. A sanctuary to escape to for restoration, relaxation, and rejuvenation. Imbibing the wellness traditions and principles of *Ayurveda*, which was a way of life in early India, The Imperial Spa's philosophy is sealed with the knowledge '*Mudra*' wherein the spa journey is curated to carefully balance the body, mind and soul.
